### EV chargers

Fee for EV chargers	New	Y	<b>\$0.30/ kWh</b>
			Min. Fee excl. GST: \$0.30

Transport is the fastest rising source of emissions in Australia. Electric Vehicles are significant in reducing emissions from this sector and accessibility of fast EV chargers will encourage investment in EVs by our community. In May 2022, the South East Councils Climate Change Alliance (SECCCA) completed an EV charging roadmap. The SECCCA report identified optimal locations for publicly available charging stations and investment options. As noted in the report, the commercial EV charging sector is growing rapidly and the industry's appetite for investment is growing. The Sustainability and Environment team are working with the Transport team on the best approach to engage with industry in installing and operating chargers at strategic locations.

Currently Council currently have EV Chargers at the following 3 sites - Myuna Farm, Cranbourne West Community Centre and Elliston Community Centre. These EV chargers are provided at no cost to staff and the community. Based on current use, this is costing Council approximately \$5,500 per year. The SECCCA report highlighted that Council providing free chargers reduces the commercial sector's willingness to develop the EV charging network as it becomes commercially unviable. Considering additional chargers will be installed at our community facilities and as per the SECCCA report recommendation, a fee of \$0.30/kWh (inc GST) is proposed. This will cost approximately 4-5c/km for a small to medium EV, which is significantly less than petrol.
